Electronic Giving Opportunity FAQs

Q: What is electronic giving?

Electronic giving is an automatic electronic transfer program that allows you make pre-scheduled monthly tithes without writing checks, creating a convenient avenue of giving.

Q: Why choose electronic giving?

We try to create giving opportunities that come without pressure and that are easily accessible for those desiring to give. Electronic giving allows you to prioritize your giving within your budget while saving you time. It also saves time on our end and helps to stabilize our budget.

Q: How does electronic giving work?

You decide how much you want to give and choose when your donation is withdrawn from your account. You can choose between weekly (every Friday), semi-monthly (1st and 15) or monthly (1st or 15th).

Q: Is electronic giving secure?

Electronic giving is less risky than check contribution since your contribution cannot be lost, stolen or destroyed in the mail. Only our Accounting Team has access to your information, and once it has been entered into our secure program it will be locked up in a file. We value the privacy of your information and will never share it with an outside party.

Q: Without canceled checks, how can I prove my contribution?

We will include your automatic gifts on your contribution statement, and your bank statement gives you an itemized list of electronic transfers.

Q: What if I have a variable income?

If you live on a variable income, electronic giving may not be the best option for you. We recommend utilizing your bank's bill-pay system or writing personal checks.

Q: Can I give a one-time gift?

At this time we are unable to process one-time gifts. If you would like to donate a one-time gift we would encourage you to take advantage of your bank's bill pay system, if available.
